Graph of f

3. The figure above shows the graph of the piecewise-linear function f . For $-4 \leq x \leq 12$, the function g is defined by $g(x) = \int_{-4}^x f(t) dt$.

- Does g have a relative minimum, a relative maximum, or neither at $x = 10$? Justify your answer.
- Does the graph of g have a point of inflection at $x = 4$? Justify your answer.
- Find the absolute minimum value and the absolute maximum value of g on the interval $-4 \leq x \leq 12$. Justify your answers.
- For $-4 \leq x \leq 12$, find all intervals for which $g(x) \leq 0$.

c) $g'(x)$ changing signs
 $f(x)$ changing signs
 $x = -2$
 $x = 6$
 $x = -4$
 $x = 12$
 $g(-2)$

Thank you for downloading [Calculus Bc Examination Solution Lederman](#). You may know that, people have look hundreds times for their choices books like this Calculus Bc Examination Solution Lederman, but end up in malicious. Rather than enjoy a good book with a cup of coffee in the afternoon, instead, they are with a harmful insects harmful} in their laptop.

Calculus Bc Examination Solution Lederman is available in our book collection which online access is set to public so you can get it instantly.

Our book servers hosts in multiple locations, giving you the shortest latency time to download any of our books like this one. Please say, the Calculus Bc Examination Solution Lederman is universally compatible with all reading devices
