

Introduction - World History–Social Science

The following released test questions are taken from the World History–Social Science Standards Test. This test is one of the California Standards Tests administered as part of the Standardized Testing and Reporting (STAR) Program under policies set by the State Board of Education.

All questions on the California Standards Tests are evaluated by committees of content experts, including teachers and administrators, to ensure their appropriateness for measuring the California academic content and skills standards in World History–Social Science. In addition to content, all items are reviewed and approved to ensure their adherence to the principles of fairness and to ensure no bias exists with respect to characteristics such as gender, ethnicity, and language.

This document contains released test questions from the California Standards Test forms in 2003, 2004, 2005, 2006, 2007, and 2008. First on the pages that follow are lists of the standards assessed on the World History–Social Science Test. Next are released test questions. Following the questions is a table that gives the correct answer for each question, the content and skills (where applicable) standard that each question is measuring, and the year each question last appeared on the test.

The following table lists each reporting cluster, the number of items that appear on the exam, and the number of released test questions that appear in this document.

REPORTING CLUSTER	NUMBER OF QUESTIONS ON EXAM	NUMBER OF RELEASED TEST QUESTIONS
1. Development of Modern Political Thought	13	20
2. Industrial Expansion and Imperialism	10	17
3. Causes and Effects of the First World War	14	20
4. Causes and Effects of the Second World War	13	17
5. International Developments in the Post–World War II Era	10	16
TOTAL	60	90

In selecting test questions for release, three criteria are used: (1) the questions adequately cover a selection of the academic content standards assessed on the World History–Social Science Test; (2) the questions demonstrate a range of difficulty; and (3) the questions present a variety of ways standards can be assessed. These released test questions do not reflect all of the ways the standards may be assessed. Released test questions will not appear on future tests.
