Guidelines on Workplace Violence in the Health Sector

The health sector will be an economic engine that not only creates new jobs and business but, by making workers in other sectors healthier and more productive, will enable those sectors to grow faster. Tens of millions of new jobs will be created. But what to do about it? How do we ensure that the rising number of health-sector jobs avoids wasting money and instead results in improved ...

WHO | Nigeria - World Health Organization

The first, described above, concerns the scope in general terms: certain countries leave health and pensions to the private sector, others do not. But there is a second pitfall when it comes to comparison: subcontracting. While a particular domain may indeed be run by the public sector, it can still rely in part on subcontractors, who artificially deflate the public sector employment figures ...
